STATEMENT OF THE CASE

This litigation continues at the appellate level for two basic reasons. First, an objective review of the Chancellor's division and allocation of marital assets between Frank and Susan shows that division to be plainly inequitable. (See Page 8, Appellant's Brief). Second, the discretionary and subjective decision making process employed by the Chancellor was wholly without reference to the mandatory guidelines of *Ferguson* and *Armstrong*. *Ferguson v. Ferguson*, 639 So.2d 478 (Miss. 1994), *Armstrong v. Armstrong*, 618 So.2d 1278 (Miss. 1993).

ARGUMENT

Division Of Marital Assets

Ferguson and it's progeny require an evaluation and division of marital assets according to certain promulgated guidelines. A trial court's failure to make a point by point Ferguson analysis amounts to an abuse of discretion and reversal is required. Baker v. Baker, 807 So.2d 474 (Miss.App. 2001).

Susan reasons that her case somehow falls outside the *Ferguson* constraints because she and Frank stipulated as to marital assets and their value, and to an extrajudicial division of some portion of their personal property. She goes on to argue that these actions by the parties left the Chancellor with only minimum decision making and a *Ferguson* analysis is therefore not necessary. The authority cited by Susan for a *Ferguson* exemption is the Court of Appeals decision in *Parsons v. Parsons*, 741 So.2d 302 (Miss.App. 1999).

Before commenting on *Parsons*, a brief return to the facts is in order. Frank and Susan did stipulate to marital assets and their value. Likewise, there was an agreed division of several items of personal property whose total value amounted to about \$16,000.00. However, left for

adjudication by the lower court were issues of divorce, alimony, custody and support of children and their emancipation, disposition of marital assets including the marital home valued at \$100,000.00 and encumbered by an \$84,200.00 mortgage, Susan's 401k valued at \$20,800.00, Frank's 401k valued at \$138,000.00, and Frank's retirement, the value of which was never factually developed.

Parsons does not stand for the proposition that the Ferguson factors may be jettisoned for reasons like or even similar to those cited by Susan. In Parsons, the lower court litigation and the appeal from that litigation dealt with one issue and that issue was the status as marital property or not of a Mayer Street residence owned solely by the wife at the time of the divorce. The parties in Parsons had over the course of their marriage bought, sold and conveyed to each other their respective interests in five (5) separate homes, the last of which was the Mayer Street residence. It was necessary in *Parsons* that the chancellor wade through a complicated series of transfers and conveyances to finally arrive at a determination of the marital asset status of the Mayer Street property. Further, the parties in *Parsons* prior to the divorce action had divided all assets save the Mayer Street house. Not only does the appellate court's **Parsons** decision not absolve lower courts from implementing a *Ferguson* analysis, it specifically requires that lower courts evaluate division of marital assets using the Ferguson guidelines and to support their decisions with findings of fact and conclusions of law. Though chastened by the appellate court for its failure to fully comply with Ferguson, the decision was affirmed because the chancellor was not manifestly wrong in concluding that the Mayer Street property was a non-marital asset.

Permanent Alimony

The legal proposition that a chancellor has the authority to award alimony is unassailable. But, that authority is discretionary not unbridled, and is tempered by the "standards of justice and equity" set forth in *Armstrong*, *supra*.

Susan categorizes as "parsimonious" the lower court's award to her of only \$500.00 a month as permanent alimony. Considered in isolation and taken only against the backdrop of the respective monthly incomes of the parties as Susan does in her argument, her point is perhaps well taken. However, *Armstrong* requires that other factors be brought to bear in the making of an award of alimony. The Chancellor failed to consider *Armstrong* at the hearing below and likewise Susan fails to consider *Armstrong* in her appeal to this Court. Further, by requiring Frank to continue to pay alimony unabated even at and during the time that Susan will be receiving one-half (½) of Frank's retirement, the Chancellor completely ignores the concept of equity announced in *Ferguson* holding that all issues of divorce related to financial disposition including property division, alimony and child support should be considered together and that where one expands the other must recede.

Finally, living with Susan are her three (3) children. Waldon, an adult over the age of 21, Rebecca and Jacquelyn, twins age 19. All are gainfully employed, none are dependant upon Susan and not one contributes to the financial maintenance or upkeep of the household. Parents are entitled to the services and earnings of unemancipated children. *Marlar v. Smith*, 134 Miss. 76, 98 So. 338 (Miss. 1924). Equity demands a debit to Susan and a credit to Frank.

Child Support For Rebecca

Susan would have this Court affirm the award of child support to her for Rebecca because according to her the proof of Rebecca's employment was "at best in sharp conflict". (See Appellee's Brief Page 7). Let's look at the record. Let's look at the proof.

20.	, Q.	And Rebecca? Same situation with her?	
21.	A.	She lives at the house.	
22.	Q.	And she works at Klondyke?	
23.	A.	She started yesterday at Klondyke's.	
24.	Q.	Full - time?	
25.	A.	l don't know that it's full - time.	
26.	Q.	What	
27.	A.	She told me that she was going to work	
28.	when she v	vas needed. I wouldn't call that full - time.	
29.	Q.	I mean what do you know about these two	
1. 2.	girls. I mea	an, you don't know if she's working

9.	A.	No, that's not right. No.	
10.	Q.	Are they beholding to you in any way?	
11.	Α.	No.	
12.	Q.	They do what they good and well please?	
13.	Α.	That's not right. They still live under	
14.	my roof and	d they go by my rules.	
15.	Q.	And what are those rules?	
16.	A.	That they go to school and they get a job.	
17.	Q.	What school?	
18.	Α.	Well they were in high school. They just	
19.	got out in J	•	
20.	Q.	So they're not going to school. What are	
21.	they other i	rules?	
22.	A.	That they work.	

On direct examination Frank responded thusly:

(Page 144...)

- 21. Q. And the fact is that now that school is
- 22. over and their not in school now, they're both
- 23. working; is that right?
- 24. A. Yes, sir.
- 25. Q. Jacquelyn is working full time?
- 26. A. Yes, sir.
- 27. Q. And Rebecca, it's my understanding, is
- 28. going to be working full time or just started to work
- 29. full time as well?

(continued at Page 145...)

- 5. Q. Where is Rebecca working, do you know?
- 6. A. She's at Klondyke's.
- 7. Q. Is it a full time job to your knowledge?
- 8. A. To my knowledge, her work schedule will be
- 9. six days a week from 10:30 to 6:30 every evening for
- 10. fifty dollars a day. That's my understanding.
- 11. Q. Okay. And you got that from Rebecca?
- 12. A. Yes.

The proof in the record as it relates to Rebecca's employment is clear and certainly not in sharp conflict. At the time of this divorce she was working at Klondykes from 10 a.m. until 6 p.m. six (6) days a week being paid \$50.00 per day. All other aspects of Rebecca's lifestyle and dependancy status are addressed in Appellant's Brief. Rebecca, twin sister to Jacquelyn, is like Jacquelyn emancipated in fact and should be declared so in law.

CONCLUSION

In her Brief, Susan makes an asset by asset analysis of marital asset division, alimony and child support in an effort to justify the Chancellor's Final Judgment. The trial court, is however, charged with determining whether the entire property division including child support and alimony was equitable. *Tillman v. Tillman*, 716 So.2d 1090 (Miss.App. 1998). Frank, like all other

litigants caught up in divorce and the judicial wranglings of related issues of child custody and support, alimony and division of assets is entitled to a decision which is grounded in equity and fair play. Our Supreme Court has determined that the desired end result will most often be obtained by the means application of the guidelines of *Ferguson* and *Armstrong*. The Trial Court's decision here is without reference to either *Ferguson* or *Armstrong* and should be reversed.

Respectfully submitted,
