NO.2011-CC-00020-Bruce D. Goodwin v. Mississippi Employment Security  
Commission

BRIEF

In February of 2011, I was terminated from Holmes Oil Field because I filed for unemployment. I was told by Mike Ziglar that if I ever filed for unemployment I would be fired. After I filed Rene Ziglar called me and stated if I continue to file they would have to let me go. I told her I had no choice, even though I was part time I was not getting any hours and my bills were falling behind so what else was I suppose to do, jobs are hard to find. I was told I was fired for not reporting to work when they called me but my phone records show that they did not call on the dates they stated.

My employment began with this company in 2000 off and on until 2011. I have taken pay cuts to keep my job, my hours decreased more and more over time until it got to where I couldn't pay my bills. I asked several times for work and was told they will call me.
